

SPRING SEMESTER 2020 VOLUME 3

ALPHA EPSILON DELTA

Nevada Beta

Pre-Professional Pre-Health Honors Society

2020 *Yearbook*

Although COVID-19 stopped in person activities, it didn't
stop our seniors from graduating!

“Success consists of going from
failure to failure without loss of
enthusiasm.” –Winston Churchill

Our seniors have grown as they
helped lead our society. Their
passion is what makes AED so
successful and diverse.

What is left behind you is all
your memories that you've
made. Before you, is all the
accomplishments and dreams.
All the support and love around
you has brought you to this
stage.

Cecil Babul

Favorite Memory

My favorite memory during my time in AED was going to Tampa to attend AED's National Conference. I was able to grow closer to my future peers in medicine and gained memories that will last a lifetime.

Future Plans

After graduation, I ultimately want to attend medical school in hopes of achieving my dreams of becoming a physician to serve in the Las Vegas community.

Advice for AED

My advice to future/fellow AED members is to stay on course. It can be a lonely and stressful path to professional school but all your AED peers are going through the same thing. Build relationships early on and the rest of the puzzle pieces will fall in to place.

Sophia Goergi

Favorite Memory

My favorite memory would be volunteering at Operation School Bell.

Future Plans

I will be attending UNLV School of Medicine.

Advice for AED

Don't be overly stressed all the time and compare yourself to others. Take each hurdle one at a time and keep moving forward.

Maxine Kay

Favorite Memory

During my time in AED I loved cooking for the families staying at the Ronald McDonald house! Also, I loved being able to help some of my fellow members find doctors to shadow.

Future Plans

After graduation, I will be applying to medical school and taking a gap year to work and travel!

Advice for AED

Some advice I have for other AED members would be to not compare yourself to others because we all have our own path, and to remember to take time to do the things you love.

Roberto Cetina

Enamorado

Favorite Memory

My favorite memory would have to be the Tampa trip, it was one of the last moments I got to truly let my hair down and have genuine laughs with friends.

Future Plans

I'll be applying to Touro's MHS program in August in order to obtain a Masters degree before heading into the Air-Force to be able to utilize the GI bill order to ultimately pay for PA school.

Advice for AED

I would say two things, first, you should see each other as allies and not competition, always help each other out and help each other succeed. Second would be, always have a plan for when the plan fails.
