5 Marie Hashitani
Natalie Johns

6 Tantri Porter
Carly Quintana

7 Amber Rivera
Calida Tam

MARC *Amandoron*

RACHEL *Balcerak*

LEARN MORE ABOUT RACHEL!

After graduation, Rachel plans to head home to Wisconsin. She is going to take a gap year to get more clinical experience before she starts PA school. She plans to learn sign language and Spanish too. Outside of building her resume, she looks forward to seeing her family again and going skiing.

FAVORITE AED MEMORY: Thanksgiving potluck!

WORDS OF WISDOM: Don't forget to take time for yourself, there are more important things than grades.

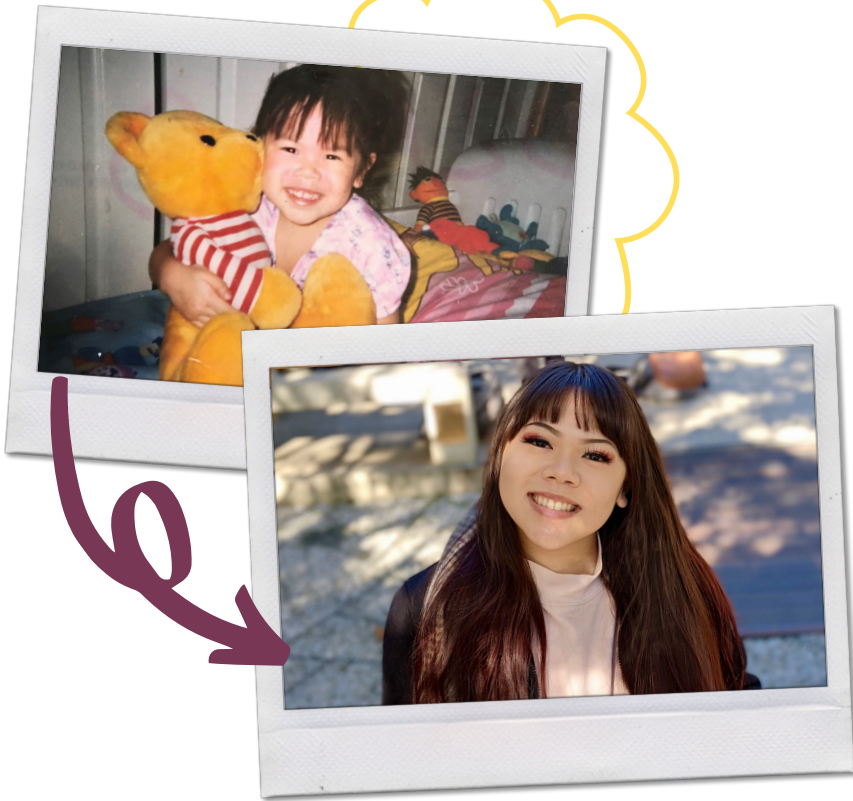

HADASH *Brhan*

FAVORITE AED MEMORY:

I have been in AED for two years and I have made a lot of fun memories. My favorite would have to be my committee (The Wellness Committee) and all the game nights we held for AED. I also enjoyed fundraising at the football games and getting to watch the game on my 10 minute break lol. I also made a lot of fun memories volunteering at the LVRM with my fellow AED members.

WORDS OF WISDOM:

For present and future members of AED, I would encourage you to enjoy every moment because time really does fly. Get to know all the members and learn from each other. Our major is competitive on its own but I encourage everyone in this organization to help and uplift one another. We all have one goal and together there is nothing we cannot achieve. I truly will miss all of you.

DEANNA *Chea*

LEARN MORE ABOUT DEANNA!

Deanna is graduating with her degree in Biological Sciences and minor in Neuroscience, hoping to one day become a medical physician capable of treating patients with empathy and proficiency. She has served as co-chair of the Professional Development Committee and Educational Outreach Committee, where she gained valuable skills that will aid her in future endeavors. In her free time, she enjoys eating sushi, hiking, and bonding with loved ones.

FAVORITE AED MEMORY: My favorite memory was going to the AED national convention in Tampa because I'll never forget the memories and life-changing bonds I made.

WORDS OF WISDOM: To all members, remember to balance work and play and don't let opportunities pass.

MARIE

Hashitani

FAVORITE AED MEMORY:

Our very first Charity Kickball Tournament was my favorite memory of AED. Although I am far from an athlete, I had so much care-free fun with everyone!

WORDS OF WISDOM:

As a pre-professional undergraduate, we are always preoccupied with academia and extracurricular activities, but life is not just a grade or a resume filler. Don't forget to enjoy and cherish the experiences and people you meet along the way. There is so much to learn about the world and others. Thank you for all of my wonderful friends who have helped me and experienced with me along the way.

FAVORITE AED MEMORY:

Serving as the President during the 2018-2019 school year alongside my friends / amazing future healthcare providers! (and all the family dinners that came with that)

WORDS OF WISDOM:

Don't ever be ashamed to ask for help or advice. There is no such thing as someone who succeeded completely on their own. Gather words of wisdom from someone who has gone before you, and then pay it forward!

NATALIE

Johns

LEARN MORE ABOUT NATALIE!

Natalie is our Special Events Committee Chair and past President (2017-2018) who is graduating this semester with a degree in biochemistry. Her undergrad thesis is in graphic medicine, where she has been working to create an educational comic book series for pediatric oncology patients and families, which she plans on continuing in medical school. She's in the process of interviewing right now and is excited for where the future might take her. Outside school, she enjoys rock climbing, baking, traveling, and trying new foods.

TANTRI *Porter*

LEARN MORE ABOUT TANTRI!

Tantri's journey at UNLV started in Fall 2015, when she was almost a half century. She chose Comprehensive Medical Imaging - Ultrasound as her major because she would like to help people find their problem (disease). Cancer killed both her parents and it was found a bit too late. Her memory for sure is not as sharp as when she was in her 20s, but she worked hard to reach her goal. Congratulations to all AED graduates of 2020...together, we can change the world!

FAVORITE AED MEMORY: Volunteering with Habitat for Humanity @ World Design Center!

WORDS OF WISDOM: "Anyone who stops learning is old, whether at twenty or eighty. Anyone who keeps learning stays young." - Henry Ford

CARLY *Quintana*

LEARN MORE ABOUT CARLY!

Carly moved to Las Vegas 4 years ago from Colorado to fulfill the first step towards her dream of becoming a physician. She is graduating this fall with a bachelors of science in Biology and minor in psychology. Carly plans to apply to medical school this cycle and begin her next step towards her career.

FAVORITE AED MEMORY:

Volunteering at Las Vegas rescue mission serving those in need.

WORDS OF WISDOM:

Time management is the best skill you can acquire. Always make time to spend with others as those are the memories that you will cherish most. Books will always be there but people and memories won't.
